## POPEJOY CASE IS SUBMITTED

JUDGE O'BRIEN TAKES THE MATTER UNDER ADVISEMENT

A hard-fought case was on in the district court yesterday and the array of legal talent was something out of the ordinary. The case is the result of habeas corpus proceedings brought by Mrs. A. C. Popejoy to recover her child from Mrs. Elizabeth M. Popejoy. The child in question is a little twenty-two-months-old girl and was born to Mrs. A. C. Popejoy when she was a Miss Clara Davis, and has been in the possession of Mrs. Elizabeth Popejoy at that time, the wife of the father, ever since his birth. Since then Mrs. Popejoy has secured a divorce from her husband and he has married Miss Davis. Mrs. Popejoy No. 1 stated that since she has had possession of the child she has worked to support it and has a strong monthly attachment for it. She is well-known here in Tonopah, having resided here for about four years. She has been a hard working woman and since having the care of the child has sought to give it the best of care and attendance.

The case was argued and submitted late yesterday afternoon and Judge O'Brien has taken it under advisement, as there are a number of legal points involved.

The attorneys for Mrs. Elizabeth M. Popejoy are Campbell, Metson & Brown, Huger Wilkenson and Thompson, Morehouse & Thompson.

Mrs. A. C. Popejoy is represented by L. A. Gibbons.

## PERSONAL MENTION

Captain Cotter is in from Golden Arrow.

A. J. Chambers of the T. & G. railroad, returned from Rhyolite yesterday.

Frank P. Gardner will be an outgoing passenger for San Francisco this morning.

F. T. Armistead, engineer of maintenance of the T. & G. railroad, returned from Rhyolite yesterday afternoon.

James F. MacCambridge was over from Goldfield yesterday. He says he has started active work on his lease in that camp.

John Haley, a prominent mining man of Goldfield, arrived from that place yesterday and will leave this morning for the east.

Oscar Jameson leaves this morning for response to news of an important strike in the vicinity of the Rawhide Nevada King, a property in which he is interested.

C. P. Richmond is in from Manhattan. He reports that a great many eastern capitalists have visited the camp lately, and as a result the place is rapidly coming to the front. He returns to Manhattan tomorrow.

Patsy Bowler is back from Rawhide, an enthusiastic booster for that camp. Mr. Bowler says that he has been in every mining excitement for the past twenty years, and says that the showing at Rawhide far exceeds any that he has ever witnessed.

## REMAINS SENT TO SALT LAKE

The remains of Edward Gilman will be taken to Salt Lake for interment this morning. They will be accompanied by the widow and brother of the deceased.

## BUTLER MATINEE

A matinee will be given at the Butler theatre this afternoon at 3 o'clock. The usual good bill will be shown, and this, in addition to the songs, make it a place where an hour can be passed in a most profitable manner.

## RECEIVES PROMOTION

A. J. Chambers, who has been connected with the Tonopah & Goldfield railroad for several years, has been promoted to the office of roadmaster. Mr. Chambers will take charge of the new office on April 15. The territory under his supervision extends from Tonopah junction to Goldfield, and from Goldfield to Bullfrog, the latter part being the Bullfrog-Goldfield railroad property.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

## THE LOS ANGELES VISITORS MONDAY

PROMINENT CITIZENS MAKE ARRANGEMENTS TO WELCOME THEM

Arrangements were made yesterday by several prominent citizens, to welcome the members of the Los Angeles chamber of commerce, who will arrive here Monday morning. While their stay will be brief they will be given every opportunity to see sights of our city and also will be taken through one or two of the mines and mills so they can see for themselves the wonderful mineral storehouses of Tonopah.

The Elks' club rooms will be thrown open to the visitors.

## VETERAN WILL BE BURIED TODAY

The inquest held over the remains of Joseph Read, the old soldier, who was found dead in a Chinese wash house Friday morning, it was determined that his death was due to heart failure.

The deceased will be buried today from the undertaking parlors of Wonnacott & Hall, and all old soldiers and Spanish war veterans are requested to attend.

## SELECT DELEGATES TO CONVENTION

At a meeting of the Republican county central committee of Nye county, held at the offices of L. A. Gibbons, chairman of the committee, on the fourth day of April, 1908, the following named persons were selected to represent Nye county at the Republican state convention to be held at Winnemucca, on the twentieth day of April, 1908, viz.:

Tonopah—L. A. Gibbons, Thomas McMahon, Alex. McKenna, G. R. Bradley, L. C. Branson, W. W. Booth, James F. Dennis, G. W. Sammerfield.

Manhattan—W. S. Johnson, W. G. Doan.

Rhyolite—Judge J. A. Largent, E. R. Clemens.

Beatty—Charles E. Sexton.

## CHURCH SERVICES

## Catholic

On Passion Sunday, April 5, at 10 o'clock mass, Catholic church, the full choir, under the director, Mr. A. Burrows and Miss Bawden, organist, will render the entire Farmer's mass, B flat, with santus from Gounod's Messe Solennelle.

## First Baptist Church

Regular services of Sunday school at 10 a. m. Preaching at 11 a. m. and 7:30 p. m. by the pastor. Bible study class Thursday at 7:30 p. m.

A cordial welcome to all.

## Presbyterian Church

Subject of morning sermon—"Putting Things First." Evening—"A Mighty Hunter."

SerVICES—Sunday school at 9:45 a. m.; morning worship, 11 a. m.; Christian endeavor, 6:45 p. m.; evening worship, 7:30 p. m. Good music morning and evening. Floyd E. Dorris, pastor.

## NEW INCORPORATIONS

Articles of incorporation for the following were filed at the county clerk's office yesterday:

Lucky Girl Mining company, \$1,000,000. The incorporators are Salt Lake people.

Phonolite-Independence Mining company, \$1,000,000. The incorporators are from Salt Lake.

Manhattan-California Mining and Leasing company, \$1,000,000. Two incorporators hail from Sacramento.

Milner-MacLaren Leasing and Mining company, \$100,000, by Los Angeles people.

Nevada Mine Purchasing and Holding company, \$100,000. Incorporated by Los Angeles parties.

## WEATHER REPORT

U. S. department of agriculture, Tonopah, Nev. Meteorological report for the week ending April 3, 1908:

Highest barometer (April 1) . . . 30.29  
Lowest barometer (March 29) . . . 29.72  
Highest temperature (April 3) . . . 53  
Lowest temperature (April 1) . . . 18  
Mean temperature . . . 27  
Average dew point . . . 13  
Average humidity . . . 38  
Number clear days . . . 6  
Number part cloudy days . . . 1  
J. C. PIERCEY, official in charge.

## GOLD PROPERTY AT BOYD BASIN

W. J. DOUGLASS AND J. J. MULLIN ARE INTERESTED IN THE NEW DISTRICT

"After spending several days at Boyd basin and having thoroughly examined and sampled the Lane & Bryan property, I do not hesitate to say that it is a wonder and in my opinion the greatest in the state. The showing of gold ore, both high-grade and milling, is truly marvelous—greater than that in any of the big gold mines in any of the southern Nevada camps, and I have seen them all."

The above statement was made by W. P. Murphy, a well-known mining engineer representing one of the strongest aggregations of capital in the country, who returned this week with G. A. Lane from Boyd basin, or Florence, the camp in the Pine Forest range, in northern Humboldt, to which all indications point as being in line for one of the biggest legitimate mining booms known in the state since the discovery of Tonopah.

The Lane & Bryan property, referred to in such terms of praise by Mr. Murphy, consists of the Rainstorm and Moon Anchor groups, comprising twenty-two claims in all, and is the one on which the original strike was made last summer by Z. Bryan, and upon which since that time a large amount of development work with the most flattering results has been done by the locator and his partner, G. A. Lane.

Mr. Murphy went out to Boyd basin to examine the Lane & Bryan holdings as the representative of M. H. Gilliam, a prominent mining man of Spokane, Wash., who is associated with wealthy eastern capitalists in a number of Nevada mining enterprises.

As the result of Mr. Murphy's examination it may be stated that there is hardly a doubt that the option held by Mr. Gilliam on the Lane & Bryan holdings, including the Florence townsite, will be exercised and the great property will pass to the control of men with ample capital behind them to develop it into one of the greatest producing gold mines of the country.

Mr. Murphy's opinion of the value of the property, above quoted, was given only after he had secured the assay certificates from a cold-blooded sampling of the ore in all the workings. Of these results, he said:

"My assays ranged from \$10 to \$30,000 and samples were taken from the Rainstorm, Moon Anchor and Spencer groups. On the Rainstorm No. 3 there are two shafts, one fifty and the other forty feet deep, which have been sunk on the same big ledge. On the surface this ledge was eight feet wide and at fifty feet the width has increased to nearly twelve feet. In the bottom of the deepest shaft there is opened up a sixteen-inch streak of high-grade that assays from \$500 to \$1000 per ton. Eliminating the high-grade entirely, the remaining ten feet of ledge matter, from which I took a sample from 150 pounds of ore, gave returns of \$14.40 in gold.

The ledge is a perfect fissure, in a contact of porphyry and horn blended schist. The values, both for the high-grade and the milling ore, are remarkable, and the ledge has the strongest possible indications for permanency. In all my experience I have never seen a more wonderful showing, the values, width and strength of ledge all considered.

"On the Moon Anchor group a tunnel is being run to tap another large ledge showing high values on the surface.

"On the Spencer No. 3 a shaft is down twenty-two feet, the ledge in the bottom showing over six feet wide. I took four careful samples clear across this ledge, not including a six-inch streak of high-grade, and the average of the samples was \$65. The high-grade is one of the jewelry variety. A grab sample from this streak assayed \$32,000. I was amazed over the results; a really wonderful showing in every respect.

"In my judgment," continued Mr. Murphy, "the camp of Florence is bound to be one of the greatest in the state. It will have a boom based on merit and the boom will start right away, as the camp is now easily accessible. The district has the advantages of a practically unlimited supply of wood and water, having everything in its favor for the operation of mills. There is enough ore in sight now in the Lane & Bryan property to keep a mill of large capacity running steadily. The erection of a mill will doubtless be one of the first things to be done should the people I represent acquire the property."

The above statement of Mr. Murphy bears out the oft-repeated publication of the wonderful richness of

## CONSERVATIVE, SAFE, PANIC-TRIED

The Test of a financial institution is in its ability to take care of its customers in times of stress. In other parts of the country, during the recent panic, depositors have been refused cash, or necessary accommodations by their banks, whereas this bank has, at all times

## PAID THE GOLD COIN

NEVADA FIRST NATIONAL BANK OF TONOPAH  
United States Depositary.

Lane & Bryan's great Boyd basin property. And it will be very pleasing news to Mr. Lane's many friends in Winnemucca and elsewhere to know that he is on the eve of reaping the reward for the confidence he has shown in carrying on the development for many months, going down into his own pockets for the money necessary to carry on the work.

That Florence is to have a boom is beyond question of doubt and that it is going to be a great thing in a business way for Winnemucca is just as certain.

Since lots in the Florence townsite were placed on sale, there has been a brisk demand for them both locally and from the outside. This is the forerunner of the boom which within a few weeks will make Florence camp one of the liveliest in the state.

## Tonopah Men Interested

Ed Templin, who is associated with W. J. Douglas and John J. Mullin of Tonopah, has been in town for the past few days arranging to leave for Boyd basin, where he has a number of claims. Mr. Templin was one of the lucky ones, and shortly after Lane & Bryan made their famous strike he secured the southerly extension of their Moon Anchor group of claims, situated in the richest portion of the gold belt. The claims located by Mr. Templin are among the best in the camp, showing outcrops of rich gold ore. Messrs. Douglas & Mullin will arrive from Tonopah in a short time to inspect the property and plan for development work.

## GOLDFIELD MINERS CALL OFF STRIKE

AGREE TO RETURN TO THEIR LABORS AT TONOPAH SCALE

GOLDFIELD, Nev., April 4.—The miners of the Goldfield district yesterday, by a vote of 90 to 25, decided to call off the strike which for several months has tended to paralyze the industrial progress of the camp, and to return to work wherever employment was offered at the Tonopah scale and conditions.

More than 120 members took part in the meeting, which was called for the special purpose of creating a clearer understanding among the members regarding the Tonopah scale, and for the reason that it was generally understood that the majority of the members were willing to return to work under those conditions.

President Stone, newly-elected executive of the Miners' union, said: "I do not think that there will be much of a boom in business and industrial circles, but it is my opinion that, with the recovery of the country from the financial panic and the reopening of the many leases and independent mines in this district there will be a gradual resumption of work that will swell larger and larger, like the tide, until everything is going full blast again in the Goldfield district."

"At present, due to the lack of work throughout the country," he continued, "there is not work for all the men out of employment, but it will not be long before all are again employed. The large number of non-union men brought into the camp will also retard the employment of the union men."

By the Tonopah scale, it is conceded that the miners will be able to live comfortably, considering the decrease in the prices of merchandise and food, but the wages as fixed by the Mine Owners' association were declared by President Stone yesterday to be too small for a man to support a family on. "By the agreement to the Tonopah scale," said President Stone, "we conceded to a reduction of at least \$1.50 or \$2, as many of the men were formerly getting as high wages as \$6 per day; but the reduction as fixed by the mine owners was the most sweeping one in any part of the country."

## THE OTHER WAY

"Of course," remarked Staylate, "some things go without saying."

"Yes," rejoined Miss Yeargan, as she glanced at the clock and tried to strangle a yawn, "and some others say without going."—Chicago News.

Five year old elcot at \$1.50 per gallon. H. J. Hall & Co.

## NEW AUTO LINE TO MANHATTAN

That travel to Manhattan is increasing and the camp to the north is attracting much attention, is demonstrated by the fact that another daily auto service is being put on to accommodate the traffic. Letson Baillet has instituted a line, and commencing this morning will run a car from the Merchants' hotel. Shorty Kutzkau is now handling all the people that he can carry, the numerous strikes and the interests of Tonopah people there being the incentive to people to visit the camp.

## RICH ORE ON JOHNSON LEASE

Cashier Eugene Howell of the Tonopah Banking corporation, received a message from Manhattan yesterday which stated that at a depth of twenty feet on the Johnson lease on the Earl Mining company ground, a ten-foot ledge of \$50 ore had been uncovered. The strike is on the same claim as the Kiggs-Forman lease on which such fabulously rich ore had been found several weeks ago.

The O. D. Payne stock will be sold this week by Ernest Dobrowsky, at the Tonopah Drug company.

Location notices in triplicate—handiest affair for prospectors and miners—contains carbon—150 notices in book. For sale at the Bonanza office.

## NOTICE TO STOCKHOLDERS.

OFFICE SYLVANIA MINING COMPANY OF NEVADA  
Tonopah, Nev., March 13, 1908, the annual meeting of the Sylvania Mining company of Nevada, will be held at their office in T. J. McMahon's office, at 2 p. m. on Monday, April 13, 1908, for the purpose of electing officers for the ensuing year, and to take a vote to change the place of meeting from Tonopah, Nev., to Bishop, Inyo county, state of California, and the transaction of such other business as may properly come before it.

E. R. SHIELDS, Secretary.
